

PARTICIPATE IN THE INNOVATION ENJINE CHALLENGE

SUBMIT YOUR IDEAS BY 4/7/19 AT SMARTER.NJ.GOV

ARE YOU A NEW JERSEY STATE GOVERNMENT EMPLOYEE?

WE WANT TO HEAR YOUR IDEAS ON HOW TO MAKE OUR GOVERNMENT MORE EFFICIENT AND MORE EFFECTIVE

The **Innovation ENJINE** is an “open innovation” challenge open to all New Jersey State employees of executive branch departments, as well as select commissions and agencies.

As a state employee, you have one of the best perspectives of the challenges we face, and the knowledge, expertise and insights we need to solve those challenges.

Do you have ideas for:

1. A more efficient way to do something?
2. Cost savings for New Jersey?
3. Increasing the positive impact of an existing service or program?
4. Something else that's creative or innovative?

SUBMIT YOUR IDEAS TODAY!

HOW IT WORKS

In Stage One, employees submit their ideas and vote on one another's submissions. The twenty most impactful and implementable short proposals, as rated by you, will advance to Stage Two.

In Stage Two, all employees are invited to compete - either as individuals or in teams - by crafting a plan for how to implement one of the 20 advancing ideas. A panel of judges will select up to five winning teams. Those teams will meet with the Governor and receive expert support to actually implement their plans.
